

LEAGUE UPDATES & REMINDERS DUE TO COVID-19 THAT ALL LEAGUES NEED TO WORK WITH YOUR LOCAL CENTER

REMEMBER THE LEAGUE & CENTER ARE BOTH VIABLE PARTICIPANTS IN THIS DISCUSSION & SHOULD COME TO AN AGREEMENT

**What are a league's options if schedule changes are deemed appropriate?**

Leagues have the option to postpone its sessions or cancel the remaining schedule. The league and bowling center should discuss and agree to changes in the schedule.

**Who has the authority to postpone a league session because of health concerns?**

The league board of directors (team captains and officers), by majority vote, decides on postponements for the entire league. The issue of rescheduling a postponed session(s) needs to be discussed with the center to determine any effects on the center agreement with the league and any possible scheduling/financial impacts resulting from this action.

**Who must approve any agreement to end the league season early because of the coronavirus issue?**

USBC is declaring the coronavirus outbreak as an emergency situation and is allowing the league to change its schedule by ending early, by a majority vote of the board of directors. The approval does need to be agreed upon by both the center management and the league board of directors (team captains and officers).

**Can the league board of directors do an email vote to decide these issues?**

In order to reduce the need for individuals to gather in one place to make these decisions, an email vote would be allowed as long as all board members can be contacted by email.

**How will ending the league early affect the league prize fund?**

This will result in the league having less than anticipated funds in any adopted prize list. To amend the adopted prize list based on the funds available, the league board of directors (team captains and officers) are to meet and approve an amended prize list, which must follow the general outline of the current prize list.

**If a league does not complete the season due to the coronavirus, how should the league change their adopted prize list to accommodate the shortfall?**

USBC has put together a guide for leagues which describes ways for leagues to adjust their prize lists in a way that only requires a majority of the league board of directors (captains and officers) for approval. You can access this guide [here](#). The key issue to adjusting a prize list where just a majority of the board is required for approval is maintaining the same structure of the previous approved prize list and only adjusting the prize values. Changes such as eliminating categories or other prizes named in the league rules would require the unanimous consent of all the team captains.

**How does the league determine their champions the season ends early?**

If possible, the league would end their season and declare champions based on the standings after the final date of competition. If a roll-off is necessary, we would advise the league to work with the teams involved to schedule any needed roll-offs as soon as possible, to allow for the orderly closeout of the season.

**If a league continues to bowl but members want to withdraw from the league, can the league hold them responsible for league fees? USBC holds that any member who withdraws from a league due to the coronavirus outbreak as having sufficient cause for withdrawal in accordance with Rule 114a. The individual must give notice but would not be held responsible by USBC for payment of the league fees for the two-week notice requirement should the league proceed with Rule 115b proceedings.**

As the player has sufficient cause for withdrawal, they would be entitled to a prorated share of prize money based on the number of league sessions paid for.

**If I withdraw from the league because of the coronavirus outbreak, am I entitled to prize money?**

Yes, you are entitled to a prorated share based on the number of weeks paid for
